

SYLLABUS FOR THE ACADEMIC SESSION 2020-21

CLASS – VI

CHEMISTRY

Month	Unit	Chapter	Sub-Topic
April	1	Classification of materials (sorting materials into groups)	- Importance of classification - Physical properties of materials
May	2	A study of changes (changes around us)	How to syudy changes
June		Pre-mid-term Examination	
June	2 (contd.)	A study of changes (changes around us)	- Types of changes - Classification of changes - Types of changes - Classification of changes
July	3	Separation of Mixtures	- Types of mixtures - Need for separation - Methods of separation
August	3 (contd.)	Separation of Mixtures	- Methods of separation (Cont.) - Use of more than one method of separation - Occurence of water
August	4	Water	- Water is esential for life - Uses of water
September		Revision & Mid Term Examination	
October	4 (contd.)	Water	- Evaporation and condensation - The water cycle - Sources of water
November	5 (contd.)	Water	- Drought and flood - Conservation of water - Interchangeability of states of matter
November	6	Air-the breath of life	- Presence of air around us - Displacement of air by water and vice versa - Presence of water and air in soil/ water
November		Post Mid Term Examination	
December	6	Air-the breath of life (Air around us)	Composition of air
January	6 (contd.)	Air-the breath of life (Air around us)	- Composition of air - Importance of different components of air - Extra relevant notes
February		Revision and Annual Examination	
Annual Examination			
1. A study of changes			
2. Water			
3. Air-the breath of life
